

Engine-Driven Debris Blower

- 18 hp Kohler Engine
 - Vertical shaft impeller drive
- 425 lbs
- 2" ball – Tow-able w/any utility vehicle
- 48" width
- 175 mph w/ 8700 cfm
- Super Tough rubber nozzle
- Mirror for nozzle visibility
- Sound control insulation for a quiet 84 db from operators seat
- Blows parallel to the ground
- Electric Operator Controller
 - Blower Chute (360 degrees)
 - Electric Lift to 15" clearance
 - Variable Throttle Control

The Goossen Engine-Driven Debris Blower can be towed with any utility vehicle.

Lower nozzle position blows material further, meaning fewer passes and less time spent on debris control.

Our sound control insulation means you control debris at any time of day.
