

Recirculating Turf Vacs

TV60 RE & RH

ENGINE OR
HYDRAULICALLY
DRIVEN

7 CU. YD.
HOPPER

7 cu. yd. hopper dumps from operator's seat.

**Recirculating
Turf Vac**

The only turf sweeper with the patented Recirculating Air System that minimizes dust and noise while dramatically improving pick-up performance.

**OPTIONAL
FIFTH WHEEL
HITCH**

Optional fifth wheel hitch available for TV60 models.

SUPERCLEAN SUPERQUIET

Recirculating air can make a clean sweep in your operation. The Harper Turbo Vac will operate and clean more effectively than your existing vac in just one pass. We challenge you to compare our vacs with your current vac.
